DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in telephone interviews with Attorney Frederick D. Bailey on February 18, 2005 and March 1, 2005.

The application has been amended as follows:

Please cancel claims 14, 15, and 21.

Please amend claim 10 as follows:

In line 40 replace the words "delivery schedule" with the words "arrival schedule to said dealer".

Allowable Subject Matter

Claims 10, 11, and 18-20 are allowed.

The following is an examiner's statement of reasons for allowance: Statement of allowance is in reference to independent claims 10 and 18. All other claims are dependent on these independent claims.

The present application is directed to a method of ordering and delivering merchandise to a dealer located within a user's neighborhood. In particular, the independent claims 10 and 18 recite the patentable feature that the user selects a specific dealer from a map displayed on the user's terminal.

Discussion of most relevant art:

i) *US Patent 6,336,100 B1* to Yamada. Yamada discloses that a user selects a dealer for delivery of ordered merchandise. However, Yamada fails to disclose that this selection is made from a map of the user's neighborhood.

ii) *US-PUB 2002/0038261 A1* to Kargman et al. hereinafter referred to as Kargman. Kargman discloses a system for placing orders over the Internet that uses a map to find the closest dealer to a user based on the user's address. However, Kargman fails to disclose that the user selects a specific dealer from the map.

iii) *"GE Supply Net Now Available To All Customers; Real-Time, On-Line Service Makes Ordering Easier, More Efficient."* Dialog File 16, Accession #: 05964020 hereinafter referred to as GE. GE discloses a system that lets customers place orders for items over the Internet and allows them to specify deliver locations. However, GE fails to disclose that the delivery locations are selected from a map.

iv) *JP Patent Application P2002-251397A* to Isao Takemoto hereinafter referred to as Takemoto. Takemoto discloses a home delivery map system and program. Takemoto has a publication date of September 6, 2002 and fails to antedate the Applicant's earliest priority date June 29, 1999.
